

Implementation Consultant - Fintech

An exciting opportunity to join a vibrant, growing software company with a young workforce and global client base.

This is a role that appeals to someone who is technically strong and has the relationship management skills to navigate clients through complex implementations.

The Company

FRS is a Dublin based Fintech firm whose main product, Invest|Pro™, is used by asset managers and insurance companies in multiple countries across the world. Invest|Pro™ provides solutions for mission-critical processes in trading, investment management and regulatory operations.

A Consultant's Contribution

This role will allow you to develop a blend of skills including consulting, project management, business analysis and technical. No two workdays are the same with FRS, meaning the role can be challenging, but extremely rewarding.

The main of elements of the role include:

- Analysing clients' business processes and challenges.
- Working with our development team to add new features to the product.
- Designing and configuring a package that will meet our clients' requirements.
- Writing automated software tests.
- Supporting our clients through their testing stages, Go Live, and in production

Candidates

FRS provides the opportunity for consultants to have a say and personally contribute to both the product and company. If you're an energetic and enthusiastic person with a blend of technical and soft skills, then this role will suit you.

- Degree qualified in a relevant discipline e.g. Technical, business, accounting, actuarial.
- Some years' experience in a relevant sector. This could include Fintech or a fund administration/fund accounting type role, preferably that included a technical aspect e.g. writing system reports, database queries, process re-engineering etc
- Organised with the ability to prioritise.
- Excellent problem solving skills.
- Articulate with excellent communication and presentation skills.
- SQL experience and/or high level Excel skills a bonus but not essential.

A Consultant's Benefits

- Salary of €35,000 - €50,000 per annum (negotiable based on experience, skills, and qualifications)
- Performance bonus
- Pension contributions
- Health insurance subsidy
- Gym membership subsidy
- Hybrid remote working
- Bike to work scheme supported
